AMPP Craftworker Series (C6, C7, C12)

The ACA and BlastOne work together to deliver the **AMPP Craftworker Series**, made up for 3 separate certifications. Surface Preparation Paint Application (C6), Abrasive Blaster Certification (C7), and Spray Application Certification (C12) which is delivered over 6 days as a set. Combining these certifications allows them to be achieved more efficiently. These certifications are important when working on government projects as they qualify surface prep and applicator trades people internationally.

Who should attend

- Abrasive Blasters
- Paint and Coating Applicators
- Painting Contractors
- Maintenance personnel
- Contractor personnel
- Industry professionals who wish to obtain certification of practical skill

Highlights

- 3 certifications over 6 days
- Training on the fundamentals of corrosion
- Skills assessment
- In class practical
- Esteemed lecturer feedback
- Digital & hard copy course materials
- Catering
- My Certification Portal - AMPP

Prerequisites

- Ethics for the corrosion professional
- 150 documented hours surface preparation experience
- 800 documented hours of abrasive blasting experience
- 800 documented hours experience applying protective coatings with airless spray

Recommended:

- ACA Corrosion Technology Course (CTC)
- Industrial Coating Application eCourse (ICA)
- Math for the Coatings Professional eCourse

p.21

Fees

Starting from AUD\$6,600

Duration

6 days

Surface Preparation and Paint Application for Power Tool Cleaning Operators and Brush and Roll Paint Applicators (C6)

The ACA and BlastOne work together to deliver **AMPP C6** certification designed to instruct industrial and marine painters in proper hand and power tool surface preparation methods for brush and roller coating application, in accordance with good paint practice.

Who should attend

- Paint and Coating Applicators
- Painting Contractors
- Abrasive Blasters
- Maintenance personnel
- Contractor personnel
- Industry professionals who wish to obtain certification of practical skill

Prerequisites

- Ethics for the corrosion professional
- 150 documented hours surface prep experience

Recommended:

- ACA Corrosion Technology Course (CTC)
- Industrial Coating Application eCourse (ICA)
- Math for the Coatings Professional eCourse

Highlights

- Corrosion basics
- Corrosion control process
- Hand-tool cleaning to SSPC-SP 2
- Power-tool cleaning to SSPC-SP 3, 11 & 15
- Assessing surface cleanliness according to SSPC-VIS 3
- Coating basics for brush & roll application
- Brush & roll application
- Use of wet & dry film thickness gages
- Determining the extent of curing
- Safety
- Skills assessment
- In class practical
- Esteemed lecturer feedback
- Digital & hard copy course materials
- Catering
- My Certification Portal - AMPP

p.22

Fees

Starting from AUD\$2,200

Duration

2 days

Abrasive Blaster Certification (C7)

The ACA and BlastOne work together to deliver **AMPP C7** certification to certify blast cleaning of steel and nonferrous surfaces. This course covers the good practice and principles of surface preparation and abrasives for industrial application.

Who should attend

- Paint and Coating Applicators
- Painting Contractors
- Abrasive Blasters
- Maintenance personnel
- Contractor personnel
- Industry professionals who wish to obtain certification of practical skill

Prerequisites

- Ethics for the corrosion professional
- 800 documented hours of abrasive blasting experience

Recommended:

- ACA Corrosion Technology Course (CTC)
- Industrial Coating Application eCourse (ICA)
- Math for the Coatings Professional eCourse

Highlights

- Basic principles of surface preparation
- Blast cleaning equipment setup
- Abrasives
- Blast cleaning technique
- Principles of surface preparation
- Nozzle abrasive blast cleaning systems
- Wet abrasive blast cleaning systems
- Portable centrifugal (wheel) abrasive blast cleaning systems
- Abrasive blast cleaning nonferrous substrates
- Skills assessment
- In class practical
- Esteemed lecturer feedback
- Digital & hard copy course materials
- Catering
- My Certification Portal - AMPP

Spray Application Certification (C12)

The ACA and BlastOne work together to deliver **AMPP C12** certification. In this program participants skills are assessed in spray application of protective coatings with airless/conventional spray in an industrial or marine environment. This course is designed to train and certify marine/industrial applicators to operate airless/conventional spray equipment.

Who should attend

- Paint and Coating Applicators
- Painting Contractors
- Abrasive Blasters
- Maintenance personnel
- Contractor personnel
- Industry professionals who wish to obtain certification of practical skill

Highlights

- Airless/conventional spray equipment operational systems
- Proper mixing techniques
- Proper spray techniques
- Conventional spray (optional)
- Troubleshooting
- Skills assessment
- In class practical
- Esteemed lecturer feedback
- Digital & hard copy course materials
- Catering
- My Certification Portal - AMPP

Prerequisites

- Ethics for the corrosion professional
- 800 documented hours experience applying protective coatings with airless spray

Recommended:

- ACA Corrosion Technology Course (CTC)
- Industrial Coating Application eCourse (ICA)
- Math for the Coatings Professional eCourse

Fees

Starting from AUD\$2,200

Duration

2 days

Private Training

The ACA offers all of our esteemed training courses privately so your businesses training requirements can be addressed in the most effective way.

Are you having trouble getting your staff to our public training courses?

Are you located too far from a capital city?

Do you have 10-24 staff you need to have trained?

Do you have a large meeting room at your disposal?

You might find it makes a lot more sense to have your staff trained on-site through a private course!

To enquire about a quote or to request more detail please email training@corrosion.com.au or phone our head office on **(03) 8608 7900**.

We will find a solution that fits your company best!

Who we are

The Australasian Corrosion Association is a not-for-profit, membership Association which disseminates information on corrosion and its prevention or control by providing training, seminars, conferences, research, publications, and other activities.

We partner with AMPP, ACRA, GAA, and other organisations to deliver world-class courses in Australasia. We take great pride in supporting long-serving members of our industry wanting to gain a qualification and enhance their knowledge in the industry as well as new students looking to explore a new field of study and improve their career prospects.

Our instructors hold the highest level of qualification to deliver training courses within multiple industries, such as Engineering, Construction, Manufacturing, Marine/Maritime, Oil and Gas, and Mining.

Head to membership.corrosion.com.au/training and get started.

Boost your career with an ACA Training Course!
