

# CORROSION & PREVENTION CAIRNS 2024

## WHY EXHIBIT AT C&P 2024

[corrosion.com.au/conference](https://corrosion.com.au/conference)

[conference@corrosion.com.au](mailto:conference@corrosion.com.au)

## Brand Visibility

Sponsoring or exhibiting at Corrosion & Prevention can significantly increase your brand's visibility within the industry. It puts your company in front of a targeted audience of professionals who are interested in corrosion prevention and mitigation.

## Networking

Our conference provides a platform to network with professionals, experts, and potential clients in the corrosion industry. It's a great opportunity to build relationships and partnerships.

## Product Showcasing

Exhibit your products or services to national and international audiences, demonstrating their value and features.

# **CORROSION & PREVENTION** CAIRNS 2024

Corrosion and Prevention is **Australia's premier conference** for those involved in all areas of corrosion mitigation. Over the years C&P has grown to include a diverse array of technical streams, exhibitors from all over the world and unique social functions.

The conference and affiliated events are the perfect opportunity to grow and build brand awareness, make important industry connections and foster education and growth within different industry sectors.

## **Location**

Cairns (QLD) is a unique city located on the north-east coast of Australia, and is home to the world heritage-listed Great Barrier Reef and wet tropics rainforests.

## **2024 Theme**

*Navigating Corrosion Challenges in Marine and Coastal Environments*

Cairns is currently receiving significant support to develop its local roads, community infrastructure and marine precinct, which makes this year's theme an 'one-time' opportunity to discuss the corrosion challenges in major projects.
